## PREFACE

The committee of Undergraduate Conference 2022 is pleased to present the proceedings of the Ninth Undergraduate Conference on ELT, Linguistics, and Literature. The primary focus of this year's conference was "Digital Literacy in Language Learning". The proceedings are a collection of research papers that the authors have written regarding the use of language in terms of ELT, Linguistics, and Literature through the implementation and integration of digital media to face the 5.0 society era. There are around 26 research papers included in the proceedings.

We would like to express our deepest gratitude to all the keynote speakers: Adesti Komalasari, S.Pd, M.A. (from Zenius Education) and F.X. Ouda Teda Ena, M.Pd., Ed.D. (from Sanata Dharma University) for the talks in the conference, the presenters and also all the participants. We would also wish to thank all the committee members for their invaluable work.

The organizing committee for Undergraduate Conference 2022 has done all in their power to ensure that both the conference itself and the proceedings will provide attendees and speakers with the most enriching and informative experience possible. It is hoped that the presenters and participants at this conference will gain a better understanding of the issue and application of ELT innovations, particularly those related to digital literacy in language learning.

Editors  
The Committee of Undergraduate Conference 2022

## TABLE OF CONTENTS
